

The United Nations' Funding of Radical Anti-Israel Organizations

A REPORT BY IM TIRTZU

Abstract: From 2016 to 2020, the United Nations has provided at least \$40 million in funding to radical Palestinian NGOs that have ties to terrorist organizations, promote BDS, and lobby the international community against Israel. The United States provides the UN with more than \$2 billion in annual funding, making it an unwitting funder of this network of radical Palestinian NGOs whose raison d'être is to destroy Israel. To remedy this situation, the report recommends 1] legislating a law similar to the Taylor Force Act, which would cut US funding to the UN so long as the latter continues to fund these radical NGOs; and 2] requiring the UN to be 100% transparent in its funding of NGOs, which it currently is not.

Background

The United States is the largest provider of financial contributions to the United Nations, contributing 22% of the UN's core budget and 25% of its peacekeeping budget.

In 2020 alone, this translated into approximately \$704 million of the UN's \$3.2 billion core budget,¹ and approximately \$1.6 billion of the UN's 2020-2021 peacekeeping budget.²

In addition, the US also provides hundreds of millions of dollars in funding to other UN agencies, including the World Health Organization, the Food and Agriculture Organization and the International Atomic Energy Agency.

Despite the UN's noble mission to maintain "international peace and security,"³ in reality the organization uses copious amounts of its multi-billion dollar budget in order to attack a single member state: Israel.

As will be seen in this report, from 2016 to 2020 the UN has provided at least **\$40 million** in funding to **Palestinian propaganda NGOs that promote Boycott, Divestment and Sanctions (BDS) and have close ties to the terrorist organizations Popular Front for the Liberation of Palestine (PFLP) and Hamas**, whose raison d'être is to destroy the Jewish state.

Support for terrorism and BDS is directly opposed to the values and wishes of the United States. In July 2019, the US House of Representatives passed an anti-BDS resolution by an overwhelming majority⁴ and to date more than 30 states have passed anti-BDS legislation.⁵

NGOs

The report surveys 19 radical Palestinian NGOs that received funding from the UN during the years 2016 and 2020.

Of the 19 NGOs, **eight of them have connections with terrorist organizations**. In fact, according to USAID, two of the organizations – Union of Agricultural Work Committees and Union of Health Work Committees – are the agricultural and health arms of the terrorist group PFLP.

The remaining NGOs all promote BDS, which as mentioned above, is in direct contravention to the beliefs and values of the United States.

⁵ <https://www.i24news.tv/en/news/international/americas/1594741909-missouri-becomes-32nd-state-to-pass-anti-bds-legislation>

Funding Sources

The UN funds these anti-Israel NGOs via three primary agencies: OCHA (United Nations Office for the Coordination of Humanitarian Affairs), UNDP (United Nations Development Programme), and UNICEF (United Nations Children's Emergency Fund).

It is important to note that the United States also provides tens of millions of dollars in funding to UNRWA, the United Nations Relief and Works Agency, whose funding is not included in this report.

Similarly, the below chart only includes funding by the UN to Palestinian NGOs, although the UN also funds millions of dollars to radical NGOs in Israel and Europe as well.

Reporting and Transparency

The UN maintains a comprehensive list of all the contributions it receives and reports many of its grants. **However, the UN is not completely transparent in reporting the funding it grants to Palestinian organizations.**

This is notably glaring with the United Nations Office for the Coordination of Humanitarian Affairs (OCHA), which often omits the "implementing partners" that receive the funding to carry out the programs. This creates a situation in which millions of dollars in funding are unaccounted for.

In a number of instances, OCHA noted the implementing partners, but did not note how much each of them received. In such instances we estimated the grant total by dividing the sum of the grant by the amount of implementing organizations listed. For example, if an OCHA grant of \$500,000 was distributed to five implementing partners, we reported the funding as \$100,000 per implementing partner. This is noted in the "Reported Donations" chart beginning on page nine.

Given our objective of reporting exact information, we are grateful to anyone who has in their possession additional information that can be brought to our attention. If changes are required because of information received, we will update the report and to the best ability inform those who have been exposed to the previous information.

occupied Palestinian territory 2018 (part of 2018-2020 HRP)	
Appealing Agency	Office for the Coordination of Humanitarian Affairs (OCHA)
Project Title	Strengthening Humanitarian Coordination and Advocacy in the occupied Palestinian territory
Project Code	OPT-18/CSS/114479
Sector/Cluster	Coordination and Support Services
Refugee Project	No
Objectives	To save lives through coordinated, effective and principled humanitarian action that meets the need
Beneficiaries	Total: 93 Humanitarian partners in oPt, including UN agencies, international and national NGOs
Implementing Partners	N/A
Project Duration	Jan 2018 - Dec 2018
Current Funds Requested	\$6,541,195
Location	Projects covering both West Bank and Gaza

Example of OCHA grant from 2018, in which the implementing partners are not listed

Recommendations

Given the gross misuse of United States funds by the United Nations, we recommend the following:

1. Implementing a UN-equivalent law to the "Taylor Force Act."

The Taylor Force Act, signed into law by President Donald Trump in March 2018, requires the US to halt its aid to the Palestinian Authority so long as it continues paying stipends to individuals or families of individuals who committed acts of terror.

A similar law can be implemented in regards to the UN, which would stipulate that the US will halt its aid to the UN so long as it continues to fund propaganda organizations that have ties to terrorist groups, promote BDS, and lobby international bodies against Israel.

Such a law would require the UN to cut its funding of these organizations out of fear of losing funding from the US, its largest donor.

2. Increased Transparency

The UN must be required to be 100% transparent in regards to its funding of NGOs. As of now, tens of millions of dollars are unaccounted for, thereby making it impossible to know where its funds are going and how they are being used.

As an international body that is supported by member states, the UN has an obligation to be transparent.

With these two measures in place, the UN will be held to a higher standard of accountability and will be forced to stop using its funds to sow further conflict, bigotry, and hatred.

Matan Peleg
